Chairman Kevin J. Martin
Federal Communications Commission
445 12th Street SW
Washington, DC 20554

Dear Chairman Martin;

I am concerned because of the ways big telecom companies want to manipulate how the Internet works. As you are aware, with FCC Docket 07-52, they want to set up priority service for a fee and second class service for the rest of us.

Currently FCC rules require equality on the Internet. Delays, when they occur, affect all communication equally. When it is fast, everyone benefits.

FCC Docket 07-52 would change this to allow big telecom companies to change the system so that they can charge for priority service.

This is unfair and unnecessary, and it would pander to corporate profit at public expense and will discourage Internet development in the public sector.

The FCC should keep the rules that have worked so well up till now. Thank you for your thoughtful consideration in this matter. I am hopeful that you will uphold the interests the people.

In Service,
